

NOTIFICATION OF ADDENDUM

ADDENDUM NO. 1

DATED 11/04/2008

Control	6172-32-001
Project	RMC - 617232001
Highway	IH0035
County	WILLIAMSON

Ladies/Gentlemen:

Attached please find an addendum on the above captioned project. Included in the attachment is an addendum notification which details the changes and the respective proposal pages which were added and/or changed.

Except for new bid insert pages, it is unnecessary to return any of the pages attached.

Bid insert pages must be returned with the bid proposal submitted to the Department, unless your firm is submitting a bid using a computer print out. The computer print out must be changed to reflect the new bid item information.

Contractors and material suppliers, etc. who have previously been furnished informational proposals are not being furnished a copy of the addendum. If you have a subcontractor on the above project, please advise them of this addendum. Acknowledgment of this addendum is not requested if your company has been issued a proposal stamped "This Proposal Issued for Informational Purposes."

You are required to acknowledge receipt of this addendum on the Addendum Acknowledgement form contained in your bid proposal by placing a mark in the box next to the respective addendum.

Failure to Acknowledge receipt of this addendum in your bid proposal will result in your bid not being read.

DESCRIPTION OF ABOVE CHANGES

(INCLUDING PLANS SHEET CHANGES)

On Sheet B of the General Notes, the note regarding Location Item No. 2 has been changed to read as follows: "Contractor will clean the retention pond (2 acres) at IH 35 and Market Street in north Georgetown once a month."

GENERAL NOTES:

This contract shall commence upon the issuance of a work order by the engineer and shall expire two calendar years or until contract funds are expended, whichever occurs first.

Each cycle of work shall be completed within the specified number of working days listed below. If the work is not completed within the allotted number of days, liquidated damages will be charged for each working day that the cycle remains uncompleted. The number of working days per cycle is based on one hundred forty acres (140) per day.

Roadways with 12 cycles = approximately 344 acres

Roadways with 24 cycles = approximately 595 acres

344 divided by 140 = 3 working days per cycle

595 divided by 140 = 5 working days per cycle

If roadways with 12 and 24 cycles are picked up at the same time, the contractor will have 8 working days to perform the work.

Due to budgetary restraints the Engineer has the option to decrease cycles.

The contractor must maintain a person to answer the phone between the hours of 8:00 a.m. and 5:00 p.m. If this isn't possible, the contractor shall have an answering machine that the contractor checks for messages daily. It is the contractor's responsibility to keep the state notified of the correct phone number.

Notice to the contractor will be considered given on the date the work order is written. The contractor will be notified this same date by phone at the phone number the contractor has given us.

All whole tires and refrigeration equipment that is picked up during litter operations should be taken to the Texas Department of Transportation Maintenance Office located on 2727 S. Austin Ave., Georgetown, Texas.

Litter pickup includes shoulders, except center shoulder next to barrier walls. Where there are grassy medians the center shoulder shall be picked up. Picking up litter on shoulders will be subsidiary to the litter bid item.

No work will be allowed on Saturdays without prior approval from the Engineer.

All equipment involved in roadway work shall be equipped, as approved by the Engineer, with a permanently mounted 360 degree revolving or strobe warning light with amber lens. This light shall have a minimum lens height of 5". The light shall have a mounting height of not less than 6 feet above the roadway surface and shall be visible from all sides. This equipment shall also have attached at each side of the rear end of the vehicle an approved orange warning flag mounted not less than 6 feet above the roadway surface.

Contract Limits:

Item No.	Highway	Location Description	Approx. Acres	Approx. Number Of Cycles	Total
1	IH 35	From FM 972 to Bell C/L Approx. 9.756 miles	344	12	4,128
2	IH 35 *	From FM 1325 to FM 972 Approx. 18 miles	595	24	14,280
TOTAL ACRES			937		18,408

* Contractor will clean the retention pond (2 acres) at IH 35 and Market Street in north Georgetown once a month.

The contacts for this project are Becky Smith at 512-832-7131 or Rosie Beck at 512-832-7057. This contract has plans. Plans are available for your review at the Texas Department of Transportation located at 7901 N. IH 35, Austin, Texas 78753, Building 2.
